Product Description

2022 Star EV Capella 48V 4 Seater Lithium Ion White

Six 8V (48V) Trojan batteries • 4 KW AC motor (5.4 HP) • Safety package included • headlights • taillights and brake lights • turning signals • rear view mirrors • horn and reverse beeper • LED digital display USB ports • Lester on-board charger • 19.5 MPH top speed • 10" DOT radial tire on black honeycomb rims • Two year limited warranty, four year on frame.

Features may include:

- Range

More battery life equals more playing time. Our 36 V electric golf cars can go up to 40 miles on a single charge, and our 48 V cars go up to 60. If you can play 15 rounds of golf... your STAR EV golf car can too. Fore!

- Comfort

Let the sport of golf make you sore, not your golf car. Large egress, high-back seats, and a smooth suspension to cruise the course in comfort.

- Durability

Your short game may be shaky but at least your golf car won't be. Reinforced bumpers, capped frames, and quality bag straps to keep you and your clubs safe.

- Keep it green off the green

Go from the course to the neighborhood in no time. Add our patented 2-in-1 combo seat to carry golf bags or 2 extra passengers in the back. STAR EV electric golf cars act as great weekend vehicles on vacation and at home. Zip through the neighborhood or get through the campground safe and smoothly.
